ABSTRACT

The annual report on education in New York State required by the legislature is presented in two volumes. This volume, the second part, presents individual school district profiles. It is a companion to "New York, the State of Learning: Statewide Profile of the Educational System." Both publications were derived primarily from information submitted by the district superintendents. Data are grouped into categories for New York City, large city school districts, other city districts, suburban districts, and rural districts. Information on the more than 700 districts in the state is presented in six tables (117 pages): (1) Table 1 presents district type and information on student characteristics and enrollment; (2) Table 2 summarizes information about teachers and educational finance; (3) Table 3 contains results of several student evaluation programs; and (4) Tables 4, 5, and 6 contain results of New York State Regents' Examinations in 12 subjects. A glossary precedes the tables. (SLD)

Statistical Profiles of Public School Districts

To the Governor and the Legislature of the State of New York:

Chapter 655 of the Laws of 1987 (which amended Section 215-a of State Education Law) requires the Board of Regents and the State Education Department to submit an annual report to the Governor and the Legislature with respect to "enrollment trends; indicators of student achievement in reading, writing, mathematics, science and vocational courses; graduation, college attendance and employment rates; . . . (and) information concerning teacher and administrator preparation, turnover, in-service education and performance." The law further states that: "To the extent practicable, all such information shall be displayed on both a statewide and individual district basis and by racial/ethnic group and gender."

The annual report is presented in two parts. The first is an analysis of statewide data contained in the publication, *New York, the State of Learning: Statewide Profile of the Educational System*. The second part is the individual district profiles contained in this document. Data in both publications were derived, primarily, from information submitted by Superintendents of Schools to the Department's Information Center on Education and Division of Educational Testing. The data highlighted in the publication were selected in accordance with the specific mandates of Section 215-a of Education Law. There are, of course, other data regarding student performance, instructional programs, support services, and resources which must be considered in order to develop fully comprehensive profiles of school districts.

The information contained in this report should be helpful to the Governor, the Legislature and the citizens of New York State in assessing the effectiveness of the many educational programs supported by the State, and in working with the Board of Regents and school officials to improve learning outcomes for our children and youth.

Prekindergarten and half-day kindergarten pupils are weighted at 0.5, 1989-90. Source: Third Annual School District Fiscal Profile Report.

In particular, the total expenditure figure used for calculating the percentages **includes** expenditures for tuition, transportation and debt service.

- **Percent for Central Administration:** Expenditures for central administration divided by total expenditures. Central administration expenditures include chief school officer, business office, purchasing, personnel, public information, research, planning and evaluation, and fees for fiscal agents, 1989-90. - **Program Evaluation Tests:** The quartiles (for science) and the percentile ranks (for social studies) are based on frequency distributions of mean scores for all public and nonpublic schools in the state administering the science and/or social studies tests. The quartiles and percentile ranks provided for the total district represent the quartiles and percentile ranks of the "average school" in the district, 1990-91. Source: Division of Educational Testing.

- **Preliminary Competency Test Percent Above State Reference Point:** The percent of students tested making normal progress in developing the basic skills of reading comprehension and writing, 1990-91. Source: Division of Educational Testing.

- **Regents Examinations:** Percent of average 9-12 enrollment tested, percent passing of number tested and the number of students passing the examination as a percent of the average grade enrollment are shown for the following June 1991 Regents examinations: Comprehensive English, Global Studies, United States History and Government, Comprehensive French, Comprehensive Spanish, Sequential Math I, Sequential Math II, Sequential Math III, Earth Science, Biology, Chemistry, and Physics.
